Umi Khokhar (they/them)
Front End Developer

Experience

Web Developer
ASCAP, October 2019 - April 2020
• Led development across ASCAP's Vue projects, including rebuilding an existing backbone codebase in Vue and building a component library
• Created systems to improve development processes by introducing coding standards, auto-generating documentation and creating detailed specifications for projects before development starts

Founder
Greater Than, December 2018 - Present
• Founded a company focused on software development
• Developed a Vue.js site for The National Oceanic Atmospheric Administration that compares various sea level rising and flooding visualization tools
• Built upon a Wordpress site using Gutenberg blocks for Promundo's State of the World's Fathers, a biennial report battling social gender stereotypes
• Worked on a React Native car sharing app

Full Stack Developer
Edelman , Dec 2017 to June 2018
• Lead developer on various projects for clients such as Citi Group, T.J.Maxx, Tresemme, the state of Hawaii, and Ebay
• Worked on a Blockchain application using Vue
• Prototyped an iOS application with Swift

Web Developer
Makerbot Industries, July 2015 to Jan 2017
• Worked primarily in PHP on Thingiverse, the largest printable 3D model community
• Worked with Elasticsearch to help users find similar models based on a tagging system and a similarity algorithm
• Updated Customizer, a Ruby on Rails app, for customizing 3D models by adding a responsive front end to the UI and reconfiguring how user parameter forms were organized

Product Manager & Web Developer
Doublecross, June 2014 to Aug 2014
• Implemented strategies to increase sales of the DoubleCross game
• Created an online presence for the product with a responsive website
• Used social media and Google Analytics to increase traffic to the site
• Prototyped a board game with Makerbot's 3D printer, the Replicator 2

Marketing Director & Web Developer
MonologuesToGo, Mar 2012 to Aug 2012
• Created a social media presence and rebuilt website
